PROFESSIONAL SUMMARY

Frontend Developer and AI Enthusiast pursuing B.Tech in Computer Science and Engineering at SRM University AP with strong interest in scalable web applications, AI-powered solutions, and modern frontend technologies. Experienced in building responsive platforms using React.js, JavaScript, Node.js, and MongoDB. Passionate about clean UI/UX design, problem-solving, and developing impactful digital experiences.

EDUCATION

B.Tech in Computer Science and Engineering, SRM University AP 2024 – 2028

Current CGPA: 9.23

Senior Secondary Education (MPC), Bhashyam Junior College, Guntur 2022 – 2024

Percentage: 97.0%

Secondary Education, Sri Chaitanya School, Guntur 2021 – 2022

Percentage: 94.83%

EXPERIENCE

Research Internship SRM University AP

Centrality Based Routing Project May 2026 to June 2026

- Contributing to a research-focused project on Centrality Based Routing for intelligent and optimized communication systems.
- Exploring concepts related to graph theory, routing algorithms, network optimization, and scalable communication mechanisms.
- Collaborating in a research-driven environment focused on analytical problem solving and performance optimization.

SKILLS

Programming Languages	C, C++, Python, JavaScript
Web Technologies	HTML, CSS, JavaScript, React.js, Node.js
Databases	SQL, MongoDB
Tools & Platforms	Git, GitHub, Visual Studio Code
Core Concepts	Data Structures, Algorithms, OOP, DBMS

PROJECTS

SoulSync – AI Emotional Wellness Platform

Collaborated on building an AI-powered emotional wellness platform providing private AI chat support, a positive community space, and guided calming tools. Built using React, TypeScript, Node.js, and Gemini AI for real-time emotional assistance and scalable support systems.

[GitHub Repository](#)

AgriVision – AI Driven Agriculture Platform

Contributed to developing an AI-driven agriculture platform enabling crop recommendation, yield prediction, disease detection, and AI-powered farming assistance using React and Python-based backend systems.

[GitHub Repository](#)

SRM Horizon Web

Developed a modern university-focused web platform with responsive design, clean UI components, and optimized frontend performance for improved user experience.
